Problem Statement:

I am	I'm trying to	But	Because	Which makes me feel
Naturalist	study the patterns of nature by identifying different kinds of flora and fauna on earth.	accuracy in identifying species seems low and consumes too much time to classify.	of not having a guidebook around everywhere or not having help from experienced ornithologists.	frustrated
Wildlife Photographer	capture exclusive images of species	and find it hard to locate their gathering places near my place of stay	the animals might have migrated right now	exhausted
Ornithologist	identify different species of birds	too confused with the names and characteristics of them.	of my poor knowledge	outraged
Hiker	climb a mountain in the park	unable to distinguish between good and poisonous plants in the way of trekking.	of my low-grade knowledge	panicked
Marine Researcher	study the different underwater species to understand their behavior	couldn't identify species accurately	of not having a proper guidebook right now	frustrated
